

ARSHAD ANSARI

Full Stack Developer | 2.8 Years Experience

@ arshadans10@gmail.com (+91) 8439737191 www.linkedin.com/in/arshad4475/ www.github.com/Arshadansa New Delhi, India my-portfolio-eta-eight-42.vercel.app

SUMMARY

Full Stack Developer with 2.8 years building 12+ production apps using React.js, Node.js, JavaScript, and MongoDB. Delivered 84% Lighthouse Performance score, 15% organic traffic growth, and 30% code complexity reduction across product and startup environments. Looking for a product-focused engineering role where I can own features end-to-end.

EXPERIENCE

Full Stack Developer

FlyYourTech

Jan 2025 – Present Remote

- Engineered 12+ production apps (React.js, Node.js, JavaScript) with mobile-first, cross-browser compatible UI — including Vetoshealth.ai and Mysweetwishes.com.
- Achieved 84% Lighthouse Performance score via lazy loading, code splitting, and Webpack/Babel pipeline optimization across both new builds and legacy refactors.
- Built and integrated secure RESTful APIs with JWT authentication and RBAC across 12+ deployments.
- Conducted 2–3 code reviews/week in a 3-person team, contributing to sprint planning and delivery quality.
- Live Projects:** Mysweetwishes.com | Flyyourtech.com | StudentHQ | Shadesofgreenme.com | Vetoshealth.ai

Frontend Developer

Molog

Oct 2023 – Dec 2024 Gurugram, Haryana

- Led frontend development for a digital signage platform supporting distributed remote displays.
- Architected and implemented real-time synchronization using WebSockets across multiple screens.
- Improved frontend performance, scalability, and SEO, increasing organic traffic by 15%.
- Refactored legacy frontend architecture, reducing code complexity by 30% and accelerating delivery by 25%.
- Collaborated on product enhancements, debugging, and scalable UI design decisions.

Full Stack Development Intern

NextWebGuru

April 2023 Dehradun, Uttarakhand

- Developed an e-commerce website during a 45-day internship.
- Built and optimized e-commerce features like product listing, cart, and checkout using Next.js.
- Created responsive UI components and integrated REST APIs.
- Worked with modern web technologies to improve application performance and development efficiency.

SKILLS

Frontend

React.js Vue.js JavaScript (ES6+) TypeScript HTML5 CSS3 SEO Tailwind CSS GSAP Framer Motion Webpack Mobile-First Development Babel Cross-Browser Compatibility Performance Optimization

Backend

Node.js Express.js REST APIs Java WebSockets JWT Authentication RBAC Spring Boot

Databases

MongoDB MySQL Firebase Appwrite

Cloud & DevOps

AWS (EC2/S3) Vercel Netlify CI/CD

Tools & Workflow

Git GitHub Postman JIRA VS Code Agile / Scrum

PROJECTS

Real-Time Language Learning Platform mern stack, stream sdk, webrtc, socket.io, mongodb

- Built a real-time language learning platform with video calling and live streaming features.
- Implemented real-time chat and session synchronization using Socket.io, WebRTC Concept, and Stream SDK.
- Developed secure authentication and responsive UI using React.js and reusable components.
